DISPOSAL GUIDELINES FOR CHEMFAB® & CHEMLAM® PTFE COATED FABRICS

Ecological Information:

These fabrics have no known harmful effects of the environment and are generally not subject to any form of restrictive regulation.

These materials are generally not suited for recycling due to the small quantities used and the excessive costs that any recovery processes would require.

Waste Disposal:

Used product is generally suited for disposal in landfill sites and it is recommended that they be disposed of as solid waste according to local regulations.

Where the products have been in contact with hazardous or corrosive chemicals, they should be disposed of in the same manners as these hazardous materials.

Fluoropolymers can be processed for disposal via waste incinerators at a minimum temperature of 800°C. Control measures, such as wet scrubbing with alkaline solutions may be necessary to maintain the emission of hydrogen fluoride as specified by national or local regulation.

Limited Warranty: For a period of 6 months from the date of first sale, Quadrant Chemplast (Pty) Ltd warrants this product(s) to be free from defects in manufacturing. Our only obligation will be to provide replacement product for any portion proving defective, or at our option, to refund the purchase price thereof. User assumes all other risks, if any, including the risk of injury, loss or damage, whether direct or consequential, arising out of the use, misuse, or inability to use this product(s). QUADRANT CHEMPLAST PTY LTD DISCLAIMS ANY AND ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

NOTE: Quadrant Chemplast (Pty) Ltd does not assume any responsibility or liability for any advice furnished by it, or for the performance or results of any installation or use of the product(s) or of any final product into which the product(s) may be incorporated by the purchaser and/or user. The purchaser and/or user should perform its own tests to determine the suitability and fitness of the product(s) for the particular purpose desired in any given situation.
