NATURAL COLOUR VARIATIONS IN CHEMFAB® PTFE COATED FABRICS

Quadrant Chemplast (Pty) Ltd offers many styles of fabrics and belting for various industrial processes.

The colour of a non-pigmented finished product is defined by sizing agent lubricating the glass fabric. Both the colour and the occasional "stripy" brown appearance can vary due to variations in types of sizing agents used by different suppliers.

This colour variation does not affect the performance of a finished product, as it is influenced by the surface coating quality and the level of PTFE on the fabric.

PTFE Coated Fabrics supplied by Quadrant Chemplast (Pty) Ltd are produced within certain tolerances and each product has a positive and negative tolerance band. If a light or dark product with similar coating quality and % PTFE are used in the same application and treated in the same way, their performance will be similar.

Limited Warranty: For a period of 6 months from the date of first sale, Quadrant Chemplast (Pty) Ltd warrants this product(s) to be free from defects in manufacturing. Our only obligation will be to provide replacement product for any portion proving defective, or at our option, to refund the purchase price thereof. User assumes all other risks, if any, including the risk of injury, loss or damage, whether direct or consequential, arising out of the use, misuse, or inability to use this product(s). QUADRANT CHEMPLAST PTY LTD DISCLAIMS ANY AND ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

NOTE: Quadrant Chemplast (Pty) Ltd does not assume any responsibility or liability for any advice furnished by it, or for the performance or results of any installation or use of the product(s) or of any final product into which the product(s) may be incorporated by the purchaser and/or user. The purchaser and/or user should perform its own tests to determine the suitability and fitness of the product(s) for the particular purpose desired in any given situation.
